ABOUT ME

I am an adaptable and motivated individual, capable of immersing myself in a diverse working environment and always willing to create high work productivity. My objective is to look for an opportunity in the field of software engineering where I can apply my expertise in developing mobile applications in cross platform (iOS and Android).

EDUCATION AND TRAINING

[09/2019 – 03/2025]

Bachelor of Software Engineering (Honours)

RMIT University Vietnam <https://www.rmit.edu.vn/>

Address: 702 Nguyen Van Linh Blvd, Tan Hung Ward, District 7, 700000, Ho Chi Minh City, Vietnam

- Mobile development (iOS and Android)
- Data structures and Algorithms
- Agile methodologies (Scrum, Kanban)
- Research skills (literature review, academic writing, problem solving)

LANGUAGE SKILLS

Mother tongue(s): Vietnamese

Other language(s): English

DIGITAL SKILLS

iOS Development

Swift | SwiftUI | Xcode

Android Development

Java | Kotlin | Jetpack Compose | Android Studio

Others

Figma | Version Control System (Git)

Project Management

Project management tools (Jira, Trello) | Technical Report Writing | Planning | Team communication | Agile methodologies (Scrum, Kanban)

PROJECTS

[14/02/2024 – 26/02/2024]

Brighter Tomorrow

[iOS]

The app motivation is to equip children with crucial knowledge and resources about sexual abuse prevention through interactive lessons. The app supports following features:

- Provide quizzes and interactive lessons.
- Provide emergency supporting unit's list with details.
- Provide a secure authentication.

PawSome

[Android]

The Pawsome app connects pet lovers with those who have dogs, cats, and other adorable animals that are waiting for their forever homes, it let users enjoy the companionship of a cuddly creature and learn how to raise them before coming to an adopted decision. The app supports following main features:

- Manage pet information and pet booking
- Real time chat between users.
- Secure user's credential with eKYC technology.
- Integrate credit card payment for booking.
- Upgrade membership for unlocking more features.

[10/09/2023 – 25/09/2023] **Muscle Discovery**

[iOS]

The inspiration of Muscle Discovery app focuses on fitness field since fitness is an important aspect of sustainable well-being. By using app, users can achieve their fitness goals, also can monitor their nutrition and exercise habits and optimize their results. The app supports following main features:

- Offer list of experienced trainers and make appointments with them via video calls.
- Integrate credit card payment.
- Set target calories for meals within a day.
- Offer list of various foods along with nutritional factors.
- Closely monitor taken calories of meals and Adjust meal portions.
